## ABOUT ME

A software professional dedicated towards my job and have a target to learn as much as possible and stay updated with the latest technology trends. I carry a 2 plus year experience in javascript on building frontend sides of the application and some backend part also. My expectations are to learn more about technology like React, Angular, Nodejs backend and database stuffs also.

## EXPERIENCE

### 1. COLORBRACKET TECHNOLOGY LLP (2021-2022)

I worked here as a Javascript developer.

#### **Products I worked on:**

**Name of the project** - Zapster Admin Panel
